

Entrepreneurship 12 Business Plan

For this assignment you need to first think of something that you are interested in, personally enjoy and that you have the skills to do. Once you

have thought of something you need to determine how you could turn this into a business.

This needs to be something that you could with the current skills, training

and certification that you have. The idea is that the end of this assignment you could start your business idea immediately.

A reminder that everyone has different skills interests and ideas. Their reasons for going into business also differ. Be creative when thinking about the type of business you could start as a venture.

Use the outline provided for you as your guide to completing this project.
