DigiKids

Computer Camps for Kids

Registration forms can be dropped off at Cilaire Elementary or McGirr Elementary until June 30th. After this date, contact M. Ireland @ (250)758-1210.

Computer Camps for Kids
Are you aware of fast-changing technology? Want to learn how to use computers? These creative, hi-tech camps will provide "hands-on" opportunities for children to learn how to produce multi-media, use the Internet with a purpose, create personal web pages, use digital cameras, digital video, scanners and design with Lego Dacta. Other age-appropriate software, including educational games, will be used to develop computer skills.

***Check out the "Digikids" website.

**Nanaimo/Ladysmith
School District #68**

DigiKids

Computer Camps for Kids

DigiKids Computer Camps provide students with enriched opportunities to use Information Technology and Information Technology Skills for real life purposes.

Qualified teachers with years of experience using Technology will help students develop the necessary skills to do research, create multimedia presentations and to build web pages. Campers will also have an opportunity to work with other Educational Software, including educational games.

What Will Campers Do?

- ◆ Campers will create multimedia presentations including:
 - text, graphics, audio, music
- ◆ Campers will learn basic understanding of the World Wide Web including navigation, image, and text capture, and how to use search engines to get the information you want
- ◆ Campers will build a web page or two
- ◆ Campers will design and create with Lego Dacta
- ◆ Campers will learn file management in the Windows environment
- ◆ Campers will use digital cameras, scanners and video capture techniques
- ◆ Campers will learn image manipulation and creation
- ◆ Campers will have a "sports" break daily

DigiKids
