

Rock City School Parent Advisory Council

Rock City has a very active and supportive PAC. This group of interested and active parents hold monthly meetings on the second Thursday of the month at 7:00 p.m. Meetings are generally held in the library and consist of discussions and an exchange of ideas on how to support the school, its students and staff. Many times there are guest speakers on related subjects and general interest discussions, which helps involve the group in assisting with educational decisions.

During the year, the PAC organizes a variety of monthly activities such as "hot lunch days". Money is raised through a number of activities. Parents wanting to volunteer for Bingo nights should contact one of the executive members.

We encourage parents to help and become involved. You are most welcome to contact the school, any of the PAC executive or attend one of the regular meetings and introduce yourself.

The main purpose of the group is to assist the home and school communications as we provide the best learning environment possible for Rock City students.
